PURPOSE AND SCOPE

Framework for in-game currency G, public and private services, labor, employment, transactions, economic management, and administrative powers.

KEY PROVISIONS

Chapters 1-2 | Foundations and participant roles

Distinguishes baseline public services from competitive private businesses. Ordinary Builder development is generally exempt from economic restrictions, while business operations remain regulated.

Chapters 3-8 | Currency and public services

Initial allocations, earning and spending currency, transport and everyday services, and public pricing. Consult the original regulation and current management announcements for specific conditions.

Chapter 9 | Employment (Articles 27-31)

Employment is generally limited to three people. A work session normally lasts at least 10 minutes and no more than three hours. Wages are to be paid within three days after the work ends.

Chapters 10-15 | Trade, oversight, misconduct, and amendments

Peer-to-peer transactions, fair markets, managers' private businesses and conflicts of interest, economic adjustments, senior management authority, fraudulent transactions, and amendments.

STATUS AND INTERPRETATION

This regulation is listed as current and unchanged in the approved November 1, 2026 document set.

Please review the complete Japanese original before using this material to interpret obligations, restrictions, permissions, payments, or user rights.
