PURPOSE AND SCOPE

Sets rules for copyright, permissions, prohibited uses, and administration of audiovisual content in the MJX cinema system.

KEY PROVISIONS

Articles 1-2 | Scope and permitted content

Eligible content includes works created with the necessary rights, material authorized by rights holders, works whose licensing permits exhibition, and content approved by MJX management.

Articles 3-4 | Prohibited uses and YouTube

Unauthorized screening of movies, anime, or paid streaming content, use of illicit uploads, and circumvention of access or copy protection are prohibited. A video being publicly accessible on YouTube does not by itself grant permission to screen or rebroadcast it in MJX.

Articles 5-8 | Administration, enforcement, and changes

Maintenance and special events are also subject to applicable laws and terms. Violations may lead to playback suspension or restrictions. Liability that cannot legally be excluded is not waived.

STATUS AND INTERPRETATION

This regulation is listed as current and unchanged in the approved November 1, 2026 document set.

Please review the complete Japanese original before using this material to interpret obligations, restrictions, permissions, payments, or user rights.

02 / 07 General Server Regulations

Current - unchanged

Enacted October 5, 2026 Preamble, 16 articles, supplementary provisions Original PDF pages 4-8

REFERENCE ONLY: This document provides an English summary of the original Japanese regulation. It is not a full translation and has no independent authority. The original PDF and any officially announced effective date take precedence.

READ THE AUTHORITATIVE JAPANESE ORIGINAL (PDF)

Opens the official Japanese document. English summaries are explanatory only.

PURPOSE AND SCOPE

Core rules applying to all participants, including eligibility, prohibited conduct, data handling, enforcement, and appeals.

KEY PROVISIONS

Articles 1-6 | Application, prohibited behavior, and safety

These provisions cover applicable laws, language, harassment and disruptive behavior, personal information, spam, dangerous content, advertising, and solicitation.

Articles 7-10 | MGSA, multiple accounts, and administration

These articles address coordination with MGSA, use of multiple accounts, other misconduct, and obligations of the management team.

Articles 11-16 | Sanctions, appeals, and rule changes

Procedures cover responses to violations, appeals, automated detection, reviewing the rules, amendments, and service-specific additional regulations.

STATUS AND INTERPRETATION

This regulation is listed as current and unchanged in the approved November 1, 2026 document set.

Please review the complete Japanese original before using this material to interpret obligations, restrictions, permissions, payments, or user rights.

03 / 07 Builder Regulations

Current - unchanged

Enacted October 26, 2026 6 chapters, 22 articles, supplementary provisions Original PDF pages 9-18

REFERENCE ONLY: This document provides an English summary of the original Japanese regulation. It is not a full translation and has no independent authority. The original PDF and any officially announced effective date take precedence.

READ THE AUTHORITATIVE JAPANESE ORIGINAL (PDF)

Opens the official Japanese document. English summaries are explanatory only.

PURPOSE AND SCOPE

Covers Builder eligibility and responsibilities, development and ownership, schematic registration and sharing, inactivity, sanctions, and dispute resolution.

KEY PROVISIONS

Chapter 1 | General provisions (Articles 1-5)

Builder eligibility, objectives, core permissions, responsibilities while participating, and relations with the management team.

Chapter 2 | Development and rights management (Articles 6-10)

Priority preservation rights, development areas, owner labels, schematic registration and sharing, Create Mod systems, and technical facilities.

Chapters 3-6 | Economy, inactivity, sanctions, and supplementary matters (Articles 11-22)

Resources, commissioned work, confidentiality, prohibited conduct, participation status, leave and departure, registered data, sanctions, disputes, and relationships with other regulations.

STATUS AND INTERPRETATION

This regulation is listed as current and unchanged in the approved November 1, 2026 document set.

Please review the complete Japanese original before using this material to interpret obligations, restrictions, permissions, payments, or user rights.

04 / 07 Resource Pack Regulations

Approved revision - effective date pending

Revision approved November 1, 2026 Preamble, 10 articles, supplementary provisions Original PDF pages 19-25

REFERENCE ONLY: This document provides an English summary of the original Japanese regulation. It is not a full translation and has no independent authority. The original PDF and any officially announced effective date take precedence.

READ THE AUTHORITATIVE JAPANESE ORIGINAL (PDF)

Opens the official Japanese document. English summaries are explanatory only.

PURPOSE AND SCOPE

An approved revision clarifying use, modification, redistribution, and protection of creators and rights holders for official resource packs.

KEY PROVISIONS

Articles 1-2 | Scope and authorized use

Applies to data officially managed and distributed. Ordinary downloads and caching do not grant permission for redistribution or outside use. Older MJaS material is not automatically transferred under this regulation.

Article 3 | Prohibited uses and accident depictions

Unauthorized redistribution, extraction, modification, and external use are prohibited. As a general rule, depicting accidents involving a vehicle requires prior permission from that vehicle’s creator; event approval from management does not replace this consent.

Articles 4-5 | Creators’ rights and distribution management

Providing a work does not automatically transfer copyright to the server management. Requests to stop use or unregister a work are considered alongside earlier license conditions and third-party rights.

Articles 6-10 | Violations, appeals, information, and amendment

Covers proportionate restrictions, appeals, and privacy provisions. Amending the regulation does not automatically expand any existing permission or license.

Effective-date note

The revision has been approved, but the effective date will be announced separately.

STATUS AND INTERPRETATION

This revised text has been approved but has no announced effective date. Do not assume it is in force until MJX officially announces its commencement.

Please review the complete Japanese original before using this material to interpret obligations, restrictions, permissions, payments, or user rights.

05 / 07 Privacy Policy

Approved revision - effective date pending

Revision approved November 1, 2026 Articles 0-9 and supplementary provisions Original PDF pages 26-30

REFERENCE ONLY: This document provides an English summary of the original Japanese regulation. It is not a full translation and has no independent authority. The original PDF and any officially announced effective date take precedence.

Opens the official Japanese document. English summaries are explanatory only.

PURPOSE AND SCOPE

An approved revision outlining data collection, purposes, retention, third-party sharing, user requests, and security safeguards.

KEY PROVISIONS

Articles 0-1 | Information collected

With consent, the server may collect a Minecraft account UUID. For resource-pack administration, access timestamps and the management mod version may be collected where needed.

Articles 2-3 | Use and retention

Data may be used to prevent misuse, investigate failures, and improve systems. The stated retention period for user information generally extends up to six months after leaving MJX, with deletion promptly thereafter.

Articles 4-7 | Sharing, cookies, user requests, and security

Sharing personal data generally requires consent, subject to legal exceptions. Users may request access, correction, suspension of use, or deletion of their information.

Articles 8-9 and supplementary provisions | Contact and amendments

Contact MJX management (representative: warudora), Discord channel <#1320245263796801588>. The amended policy has no stated effective date; the prior active policy remains applicable until then.

STATUS AND INTERPRETATION

This revised text has been approved but has no announced effective date. Do not assume it is in force until MJX officially announces its commencement.

Please review the complete Japanese original before using this material to interpret obligations, restrictions, permissions, payments, or user rights.

06 / 07 Economic Regulations

Current - unchanged

Enacted October 5, 2026 15 chapters, 47 articles Original PDF pages 31-47

REFERENCE ONLY: This document provides an English summary of the original Japanese regulation. It is not a full translation and has no independent authority. The original PDF and any officially announced effective date take precedence.

READ THE AUTHORITATIVE JAPANESE ORIGINAL (PDF)

Opens the official Japanese document. English summaries are explanatory only.

PURPOSE AND SCOPE

Framework for in-game currency G, public and private services, labor, employment, transactions, economic management, and administrative powers.

KEY PROVISIONS

Chapters 1-2 | Foundations and participant roles

Distinguishes baseline public services from competitive private businesses. Ordinary Builder development is generally exempt from economic restrictions, while business operations remain regulated.

Chapters 3-8 | Currency and public services

Initial allocations, earning and spending currency, transport and everyday services, and public pricing. Consult the original regulation and current management announcements for specific conditions.

Chapter 9 | Employment (Articles 27-31)

Employment is generally limited to three people. A work session normally lasts at least 10 minutes and no more than three hours. Wages are to be paid within three days after the work ends.

Chapters 10-15 | Trade, oversight, misconduct, and amendments

Peer-to-peer transactions, fair markets, managers' private businesses and conflicts of interest, economic adjustments, senior management authority, fraudulent transactions, and amendments.

STATUS AND INTERPRETATION

This regulation is listed as current and unchanged in the approved November 1, 2026 document set.

Please review the complete Japanese original before using this material to interpret obligations, restrictions, permissions, payments, or user rights.

07 / 07 Visitor Rules

Approved revision - effective date pending

Revision approved November 1, 2026 Participation, work, and spending Original PDF pages 48-50

REFERENCE ONLY: This document provides an English summary of the original Japanese regulation. It is not a full translation and has no independent authority. The original PDF and any officially announced effective date take precedence.

PURPOSE AND SCOPE

An approved revision covering Visitor participation in Survival Mode and block-editing permissions managed by the protection mod.

KEY PROVISIONS

1 | Participation environment

Visitors generally join in Survival Mode. The MJX protection mod restricts block placement, destruction, and changes to city facilities unless management grants permissions in specified areas. An initial allowance is provided when joining.

2 | Ways to earn currency

Visitors may earn coins or points through customer service, driving, guiding, commissioned tasks, shops, selling products, vending machines, events, and competitions. The form of rewards varies by activity.

3 | Ways to spend

Possible uses include MTR fares and passes, road tolls, vehicles, mobility products, eligible equipment, furniture, appliances, food, and property purchase or rental. Some events may allow points to be converted into coins.

Effective-date note

These changes were approved on November 1, 2026, but no effective date has been specified. Earlier guidance should not be interpreted as implementing them immediately.

STATUS AND INTERPRETATION

This revised text has been approved but has no announced effective date. Do not assume it is in force until MJX officially announces its commencement.

Please review the complete Japanese original before using this material to interpret obligations,

restrictions, permissions, payments, or user rights.
